

Before adding the table entry, when sending 5 packets 10 packets were captured in wireshark, with 5 of them having the dst_mac and src_mac swapped.

After adding the table entry, table_add MyIngress.src_mac_drop MyIngress.drop 0C:37:96:5F:8A:18 =>, when sending 5 packets, only 5 packets sent were captured in wireshark, so the packets were dropped.
